

**Grants Pass Golf Club
Green Committee Minutes
October 4, 2010**

Gary Fahl called the meeting to order at 3pm. In attendance were Terry Soeteber, John Spetter, John Delaney, Rex Titus, Dee Hushbeck, Matt Reams, Dean Garrison and Denny Curle.

John Delaney gave a status report regarding the recent aerification, sanding and over seeding of the fairways and greens. The job went very well with the exception of discovering a significant infestation of grubs in many locations, primarily in fairways. After a good discussion, it was determined that the best approach would be to treat the entire golf course. We have tried spot treatment in the past and the grubs just move to new location. Grubs kill grass and raccoons, skunks and crows tear up the turf looking for grubs.

Budget figures are being worked on to find the funds necessary to combat this problem.

The porta potties will be moved to the new location behind #3 green on Monday Oct. 11th. John Spetter and Matt Reams will meet with Fields Hardware representative and the porta potty reps to design an enclosure around the porta potties. We want the enclosure to look good and be easy to service.

A discussion was held regarding the remodel and rebuild of the members driving range. Funds are not available at this time. Therefore the goal is to put the funds into the next budget and complete the project next November in 2011. A rebuild of #6, 10, and 14 men's tee boxes and #18 women's tee box will begin this winter if the budget is approved.
